# EDUCATIONAL QUALIFICATIONS

Year	Degree	$\operatorname{Institution}(\operatorname{Board})$	CGPA/%
July'18 – June'22 (expected)	B.Tech, CSE	Indian Institute of Technology, Kanpur	9.2/10.0
2018	CBSE – XII	Krishna Public School, Patna	92%
2016	CBSE – X	Jawahar Navodaya Vidyalaya, Saran	10/10

#### Honors and Achievements

- Awarded with Academic Excellence Award consecutively for two academic years 2018-19 and 2019-20
- AIR 782, JEE Advanced (amongst 160,000 candidates)
- AIR 367, JEE Main (amongst 1.4 million candidates)
- Samsung Star Scholar, given to 150 JNV students
- AIR 1, Indian Engineering Olympiad (amongst 16,000 candidates)

### **PROJECTS**

#### 5G/6G Development & ML

 $Faculty\ Advisor:\ Prof.\ Aditya\ K.\ Jagannatham \qquad \text{June 2020 - Present}$ 

- Explored and Analysed various aspects of the existing wireless 2G, 3G, 4G and 5G systems & it's embedded technologies like MIMO,OFDM and CDMA
- Designed a Bayesian Decision model using Maximum likelihood estimation, Bayesian Classifiers and kernel based density estimation to distinguish foreground and background of an grayscale image of a cheetah
- Achieved maximum Accuracy of 96.3% with falseness:
   0.153 for the above model in Image distinction
- Used MATLAB machine learning toolbox, SciPy, NumPy, Matplotlib to implement above models and analyse their accuracy & performance

### Caves Game

 $CS641\ Course\ Project$ 

 $Mentor:\ Prof.\ Manindra\ Agarwal,\ CSE$ 

Jan 2020 - May 2020

- Explored and Analysed different existing classical and modern **Cryptographic methods** and their weaknesses
- Completed all 7 levels of game by designing chosen
   plaintext attack for weaker models of AES,DES and
   RSA and extracted the keys used to encrypt data

#### Life@IITK

Mentor: Aditya Gulati

Science & technology Council
May 2019- July 2019

- Collaborated with application developers team to create a web application which streamlines the various aspects of the day-to-day lives of campus students
- Worked with frontend team to design a Map Page using ReactJS showing ongoing events in IITK with pinned location on map according to building or place where events are going to happen
- Used **Django-REST** to create a **Rest-API** which helps in serialization of events data

#### P2P Video conferencing App

Mentor: Mrinaal Dogra

ACA, CSE dept.- IIT Kanpur Jan 2019- Mar 2019

- Designed a basic **web application** which connects multiple registered users and allows them to communicate between each other via text messages, voice call & video call
- Used a Javascript open framework **WebRTC** to establish real-time communication between peers and enabling them to talk seamlessly

#### Work Experience

### Summer of Code, IIT Kanpur

Full Stack Developer Intern May 2019 - July 2020

Supervisor: Prof. Sandeep Shukla May 2019 - July 202
 Developed a dynamic and scalable web application using Django framework from scratch as an initiative to support various NGOs of India by keeping track of records of users and their donation history

- Implemented various functionalities that allows registered users to choose from various NGOs to donate, as well as the registered NGOs to list their mission and necessities
- Developed whole Backend system using **Django** and **Django-REST**, used **ReactJS** to develop Frontend
- Established a Payment Portal to handle all type of transactions using Paytm API

#### Boost C++ Organization

Developer

Project Maintainer: Pranam Lashkari, Boost. Astronomy Mar 2020

- Implemented Arithmetic Operations for the existing Astronomical Coordinate system using Boost::Geometry and Boost::Units library, added tests for these
- Used **Template Meta Programming** in C++ to provide almost no run-time overhead and allowing users to write code by detecting all errors at the compile time

## MINI/SELF PROJECTS

- FlappyBirdAI, Created a FlappyBird AI model using NEAT Algorithm
- StudentDATA, Developed a system to handle student database in C++ using SQL Database
- **Decoder**, Developed a decoder in Haskell to decipher monoalphabetic substitution ciphers

# SKILLS

Programming: C/C++, Python, Assembly-x86, Bash, Java Web: HTML5, CSS, Javascript, SQL, React Native Utilities/Platform: Linux, Git, Vim, Matlab, LATEX Load Testing: Kibana, InfluxDB, Grafana, Jmeter, Postman

### Miscellaneous

- Mentored Freshers in ACA project FlappyBirdAI using NEAT organized by Computer Science department
- Senior Marketing Executive in annual sports festival Udghosh'19, IIT Kanpur
- Senior Web Executive in annual sports festival Udghosh'19, IIT Kanpur
- Received **First** Prize, National Level Chess Championship held at Nagaon, Assam

# Relevant Coursework

Data Structure and Algorithms Computer Organization Linear Algebra and ODE Fundamentals of Programming Computational Methods in Engineering Discrete Mathematics

Modern Cryptology Multivariate Calculus Software Development and Operations
